

MAIN RESULTS OF 2010 POPULATION AND HOUSING CENSUS

ETHNICITY

- Mestizo, Creole, Maya, Garifuna and Mennonite remained the five largest ethnic groups.
- Mestizo is the largest group, with its share of the total population edging up from 49% to 50%.
- Creole accounted for 21%, down from 25%.
- Maya and Garifuna made up 10% and 4.6% respectively.

ETHNICITY continued

- It is noted that the number of Garifunas and East Indians remained at their 2000 levels.
- About 19 thousand persons or 6% of the population claimed to be of mixed ethnic origin.

RELIGION

- Roman Catholicism remained the single largest religion, but with its share of the total population falling from 50% to 40%.
- Pentecostalism, the second largest religion, saw its share of the population increasing from 7.4% to 8.5%.
- The number of persons who said they did not belong to any religion doubled. This group is larger than any of the main religions except Roman Catholicism.

INFORMATION AND COMMUNICATION TECHNOLOGY

- About one-quarter of the persons 5 years and over used the Internet during the three months preceding the census interview.
- At 45%, Internet usage was highest among persons 15 to 24 years old.
- There were almost equal numbers of Internet users in the “5 to 9” and “65 and over” age groups.

ICT continued

- The vast majority of Internet users accessed the Internet with a computer; the use of mobile devices was very limited.
- No significant difference in Internet usage between males and females.
- Internet usage was highest in the Belize District and lowest in Toledo.

LABOUR FORCE

- The size of the labour force increased by 46% to 131 thousand.
- About 30 thousand persons were without a job at the time they were interviewed, yielding a national unemployment rate of 23.1% compared to 20.3% in 2000.
- About two-thirds of the persons 14 years and over were either working or looking for a job. This is 3 percentage points higher than in 2000. (LFPR)

LABOUR FORCE CONTINUED

- Women recorded twice the unemployment rate of men (16.7%). In Toledo and the northern districts, it was as much three times.
- Cayo (26.2%) and Corozal (24.5%) experienced the highest rates of unemployment.
- Persons who have completed university enjoyed a much lower unemployment rate (6.3%).

LABOUR FORCE CONTINUED

- Males generally earned more than females.
- In 2010, their average(median) monthly income was \$922 compared to \$882 for females. These figures are approximately 35% higher than in 2000.
- The public sector continued to account for about 15% of the employed population.

FOREIGN-BORN POPULATION

- FBP represented 14.8% of the total population. It consisted of almost equal number of males and females.
- About 38% of the FBP arrived between 2000 and 2010 inclusive. (approximately 1,500 persons annually).
- Cayo and Belize districts accounted for 31% and 25% respectively of the FBP.

FBP continued

- Guatemala (19K) remained the single largest source of FBP. El Salvador and Honduras supplied about seven thousand persons each.
- About 42% of the FBP are between 25 and 44 years old. Sixty percent had at primary education at most.
- As in 2000, FBP enjoyed a lower unemployment rate (17.7%) than the national average (males - 11.0% and females - 29.0%)
